

European Network for Business
and Industrial Statistics

ENBIS-13: First Announcement

ENBIS – the European Network for Business and Industrial Statistics – is a platform where statistical practitioners and academic statisticians from Europe and beyond meet, exchange ideas and design new projects. ENBIS sponsors an annual conference and numerous additional events, many of them web-based.

The **annual conference** convenes every September and hosts presentations from a wide variety of sectors, ranging from manufacturing to service, from private to public sector. The ENBIS-13 conference will be held on **16-18 September 2013 in Ankara, Turkey**. ENBIS-13 will feature a number of distinguished keynote speakers, invited and contributed sessions, workshops and panel discussions, as well as short pre- and post-conference courses.

Contributions can consist of reviews (presenting state of the art advances in scientific research), overviews and introductions (presenting an area of expertise to the uninitiated), and best practice examples (sharing experiences of practitioners).

Session topics include but are not limited to the following areas:

- Design of physical & computer experiments
- Measurement uncertainty
- Process modeling and control
- Reliability and safety
- Operational risk management
- Data mining and warehousing
- Statistical computing
- Statistics in the pharmaceutical industry
- Quality improvement and six sigma
- Statistical engineering
- Time series modeling and forecasting
- Process improvement in healthcare
- Operations research and management
- Analysis of massive data sets
- Risk analysis and assessment
- Business analytics
- Teaching business and industrial statistics

Pre- and post conference courses:

- Statistical Methods for Product Reliability Improvement
- Introduction to Generalized Linear Mixed Models
- Statistical Discovery in Manufacturing
- Common Mistakes in Six Sigma Projects and how to avoid them

To register as a member of ENBIS, please visit www.enbis.org.
